

Wellness Mapping 360° “Wellness & Health Coach” Certification Training

On Location –The Walker Center - Boston, Mass – November 7th – 10th

32 Professional contact hours

The purpose of this program is... to train wellness & health professionals in the use of Wellness Coaching skills to assist their clients in making lasting lifestyle change. Participants learn a systematic coaching process, based on behavioral change psychology, human motivation, health promotion, and professional coaching competencies. They gain the skills to support and motivate their clients/patients to make the behavioral changes needed to live healthier lives.

Educational Objectives: After completing this training the participant will be able to:

- Identify the impact of lifestyle on health and wellbeing.
- Define the foundational theories of wellness coaching.
- Identify the Mindset Shift needed to engage the coach approach and empower clients.
- Identify and demonstrate use of the core coaching competencies.
- Demonstrate knowledge of and the ability to use "Readiness for Change" theory to support a client's forward movement. (*i.e.* Prochask)
- Identify the steps in the Wellness Mapping 360°™ wellness coaching method/process
- Demonstrate proficiency in – co-creating the alliance with the client.
- Demonstrate proficiency in - co-creating a Wellness Plan with the client.
- Demonstrate proficiency in – on-going evaluation techniques with the client.
- Demonstrate the use the Wellness Coaching process in time limited settings
- Identify 5 ways a wellness coach can support clients who have health challenges from prevention through recovery.
- Demonstrate understanding of the role of wellness/health coaching in medical compliance.
- Demonstrate the use of wellness/health coaching with clients with medical challenges.
- List 5 effective ways to adapt wellness/health coaching in different settings.
- Name 4 characteristics of wellness coaching groups.
- Learn how to apply wellness coaching to group work.

Training Facilitator: A licensed psychologist, consultant and wellness coach with over 30 years of pioneering contribution to the wellness field, Michael has presented seminars, keynotes and consultations on four continents, pursuing his mission of taking the concept of wellness worldwide. Michael Arloski, Ph.D., PCC, CWP is endlessly fascinated with how behavior, culture, environment and human heart and soul interact. Asking the perennial question "Why don't people do what they need to do for themselves?", he has brought the concept of individualizing wellness into the mainstream through wellness coaching. In his books, ***Wellness Coaching For Lasting Lifestyle Change*** and ***Paths of Wellness, Your Journey to Healthier Life*** he shows coaches and wellness professionals how to work with their clients to achieve lasting behavioral lifestyle change. Dr. Arloski is founder and CEO of Real Balance Global Wellness Services LLC and Dean of the Wellness Coach Training Institute. More information is available through his website www.realbalance.com

To receive credit: 100% participation in all contact hours including group discussions and group exercises as well as the successful completion of a case study and final exam.
